Management
Award*

Registration for

Lean & Green Summit 2019

in Regensburg at November 6th

Award Ceremony and Best Practice Exchange

Continental 

Lean & Green Summit 2019

hosted by last year's winner Continental in Regensburg

How do companies increase competitive advantage through resource efficiency?

How can you prepare your company and employees for the digital change?

How is the success factor „leadership“ influencing your own way to excellence?

- Get exclusive insights into one of Europe's best performing plants and use Best Practice examples to receive answers to forward-looking questions.
- The most successful approaches to increase resource efficiency will be honored at the evening ceremony.

Learn with the best and expand your network

Lean & Green Management Award 2019

Registration Lean & Green Summit

Hereby I would like to bindingly register for participation at the Lean & Green Summit on November 6th, 2019 in Regensburg. Participation is limited and is only possible after confirmation by Lean & Green. A legal claim to participate does not exist; The organizers reserve the right to decide about participation in individual cases. More information on the agenda, directions and the winning companies under: <https://lean-and-green.de/en/>

Participation includes:

-  Exclusive factory tour at Continental plant in Regensburg (participation has to be approved by Continental*)
-  Hands-on networking and exciting presentations on site
-  Lean & Green Management Award Ceremony/ Success stories of the winners
-  Networking at the evening event

* After receiving your registration we will ask the continental plant for approval and inform you shortly after about the reply. No costs will be charged in case there is no approval for the plant tour.

Our Lean & Green book presents success stories of top European companies that have participated in the Lean & Green Management Award.

It describes the intelligent linking of Lean Management approaches with environmental and energy aspects.

This can reduce costs and make sustainability strategies operationally effective.
